Plainview Collegiate High School Communication Plan

PCHS communicates through multiple venues:

- All parents and students have access to Skyward when they register online before school begins each August. Skyward allows parents and students to look at their grades and attendance online at any time.
- Through SkyAlert the school can also call, text, and email parents to inform them of important meetings or events.
- Information is posted on our school webpage, Facebook page, and Twitter link. Events and good news is often shared on these social media sites.
- Report Cards and other important documents are sent home each semester.
- Parents are required to attend two parent meets each year.
- The cohort class has a specific Google Group and Google Classroom where administration shares important information to our students.
- The principal meets with the student body every Friday morning to recognize student success, make announcements, address concerns, and answer questions.
